

Concise information
ITC Service

„Where logistics meets passion“

About us

We are a medium-sized family business that has been on the road for our customers all over the world for over 40 years now. We understand the different circumstances in various countries and can adapt flexibly to any situation on-site. Many of our customers, including well-known major companies, appreciate our expertise and have been working with ITC for many years.

Listening is a fundamental principle of our philosophy. How else could we as a service provider know what our customers want and capture the market sentiment? That's why we sit down together to clarify your needs and desires, especially those pertaining to your customers.

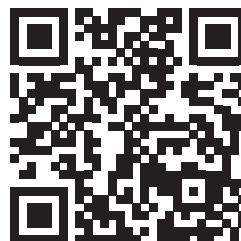

Road transport

Europe, parts of Asia, North Africa

- ⇒ 32 regular international shipments each day
- ⇒ Daily pallet service
- ⇒ Express transport and courier service
- ⇒ Partial and full loads
- ⇒ Nationwide distribution and procurement

National

- ⇒ Pallet service
- ⇒ Partial and complete loads
- ⇒ Express and courier shipments
- ⇒ Daily procurement and distribution across Germany
- ⇒ Premium products
- ⇒ GEO tracking
- ⇒ Status tracking

ITC web portal

Enter your shipments into our system dynamically or transfer them via interface. Shipping documents and bar code labels are created automatically.

Status tracking

Status tracking (even for colli) automatically notifies you by e-mail as soon as there is a status change. Both the material planner and the end customer can be informed as recipients.

Air cargo

International
Freight
Logistics
Network

IATA
CARGO AGENT

From budget solutions to express and charter services, we will handle your small or large and particularly heavy shipments, clear them through customs and track your freight worldwide.

- ⇒ Personal support and advice at reasonable prices!
- ⇒ One contact for all your air freight needs
- ⇒ Temporary storage and handling in Frankfurt 7 days a week for up to 24 hours
- ⇒ Access to the world's largest airline pool
- ⇒ Member of IATA and IFLN and agent commissioned by the German Federal Aviation Office

Rail

East- & Westbound Express

Speed train from Duisburg to Suzhou in 16-18 days for direct trade.

- ⇒ General cargo, partial and complete loads
- ⇒ Weekly departures

New rail connections are added every week. Ask us about additional routes to Russia, Kazakhstan, Japan, South Korea and many regions of China.

copyright by FELB

Customs

- ⇒ Professional advice
- ⇒ Electronic export declaration (AES)
- ⇒ Digital customs clearance via ATLAS (DE)
- ⇒ Excise tax registration
- ⇒ Neutralization of freight documents (in case of change of goods owners)
- ⇒ Applications for exemption/refund
- ⇒ Customs clearance including T1 and fiscal representation
- ⇒ Translation service for customs-relevant papers
- ⇒ EU customs clearance/fiscal representation
- ⇒ Atlas customs clearance

Sea freight

In cooperation with leading shipping companies, we provide highly flexible services within our worldwide partner network. The key to success lies in our experience, excellent partnerships and competent advising and processing staff. We support your planning and are happy to provide all the services you need, e.g.

- ⇒ B/L bill of lading
- ⇒ ABD creation (export document, former export declaration)
- ⇒ Customs clearance incl. T1 preparation and fiscal representation

State-of-the-art data technology

Our data platform allows us to quickly and easily establish connections between different systems of logistics providers. For you that means: 100% transparency - at all times!

Some examples:

- ⇒ Orders & invoices
- ⇒ Stock levels
- ⇒ Shipment interfaces
- ⇒ Deviations in the control process
- ⇒ Any reports & shipping details

All information that is relevant for you can be made available for data exchange. We will gladly generate automatic reports in your desired file format (e-mail, Excel, etc.). In addition, we can input and process all data that your systems make available to us. That's a time saver right there!

Webshop

Use online logistics as a success factor for your company. We connect your webshop to our inventory management system and the transport systems linked to it. This is how you benefit from the fastest order processing possible, including CEP connection (courier express parcel).

- ⇒ Orders from the webshop are sent almost instantly to wireless scanners in the warehouse. The goods are then picked, packed and handed over for dispatch.
- ⇒ At any time, you have access to all relevant information via our data platform. We will also gladly have the information sent to you or your customer automatically.

Logistics

With more than 45,000 square meters of warehouse space in Germany alone, ITC is also able to handle larger projects. We use existing infrastructure to exploit synergy effects and combine the logistics and transport of various industries into a holistic service.

Logistics services

- ⇒ Contract logistics
- ⇒ Central warehouse logistics
- ⇒ Procurement logistics by land, rail, air and sea freight
- ⇒ Distribution logistics, domestically and across Europe
- ⇒ Warehouse logistics
- ⇒ Merchandise management
