Concise information  
ITC road transport

Road transport  
premium products

## We're all networked!

The line haul services we provide jointly with our long-standing partners and our network of pallet services guarantee high departure frequencies and optimum service. Our access to an immense vehicle fleet within Europe further ensures the best availability options for partial and full loads in direct and cross traffic.

### ITC.ROAD STANDARD

and select the „Tools“ menu.

# @service

## GEO tracking

Using reference number, you can trace the exact route of  
your shipment.

## POD shipping

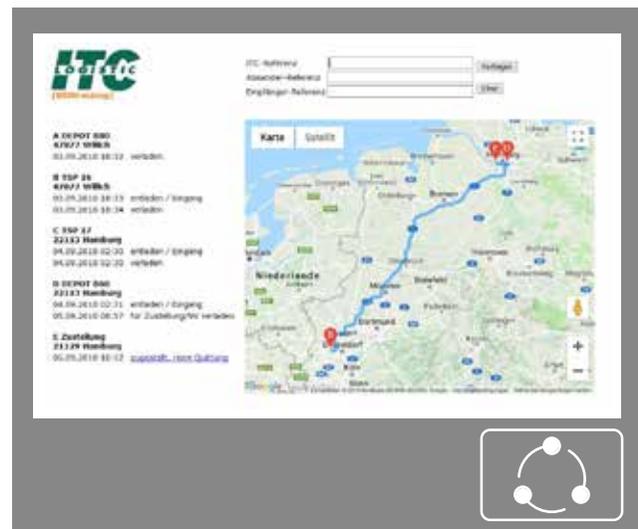

If you wish, PODs can automatically be sent to an e-mail  
address of your choice or transferred via FTP at a  
specified time.

## Automatic status tracking

If desired, status tracking (even for colli) automatically  
notifies you by e-mail as soon as there is a status change.  
Both the sender and the end customer can be informed.

## Electronic invoicing

Electronic invoicing is done via the Edifact Invoice interface,  
alternatively available in PDF format via e-mail.

Every day, 130 national and 32 international line haul services guarantee nationwide procurement and distribution.

## Europe, North Africa, Asia

- ⇒ Daily general cargo service via 32 international line haulers
- ⇒ Daily pallet service
- ⇒ Express transport and courier service
- ⇒ Partial and full loads
- ⇒ Nationwide distribution and procurement in Eurasia and North Africa
