

Concise information
Logistics

LOGISTICS

versatile | flexible | unique

Our customers and their requirements are as diverse as our services. Our logistics services adapt to the unique nature of your company and remain flexible for any changes you have to make in the future.

Contract logistics

ITC is your all-round contract logistics provider. We cover all logistics tasks and any related processes along the supply chain.

Together, we develop a tailor-made solution for your specific requirements. If desired, we can top that off with every conceivable service along the value chain.

We keep in touch! We are all ears for our customers, even during day-to-day operations. We will also happy to optimize and adapt your solution to the requirements of your new projects!

Central warehouse logistics

In Germany, ITC has the best location when it comes to EU-wide distribution and global procurement via land, air, rail and sea freight, including customs clearance/tax clearance.

From your central warehouse at ITC, you can reach your international customers in no time at all thanks to daily departures. This is how you guarantee optimum service and maximum customer satisfaction.

SUPERCALIFREIGHT-EXPIA LOGISTICS?

We simplify logistics!

simply.professional.itc

We see our customers as partners. We communicate and exchange ideas constructively and on equal footing. We listen to them, take their business seriously, plan and implement their requirements promptly. And it works. Simple and professional.

Proactive Service

We are at home in logistics

We react immediately to unforeseen events.

Spare parts logistics / Webshop

Use online logistics as a success factor for your company. We connect your webshop to our inventory management system and the transport systems linked to it. This is how you benefit from the fastest order processing possible, including CEP connection (courier express parcel).

- ⇒ Orders from the webshop are processed by your ERP system directly via our interface. The goods are then picked, packed and handed over for dispatch.
- ⇒ At any time, you have access to all relevant information via our data platform. We will also gladly have the information sent to you or your customer automatically.

State-of-the-art data technology

Our data platform allows us to quickly and easily establish connections between different systems of logistics providers. For you that means: 100% transparency - at all times!

A few examples:

- ⇒ Orders & Invoices
- ⇒ Stock levels
- ⇒ Shipment interfaces
- ⇒ Deviations in the control process
- ⇒ Reports & shipping details

All information that is relevant for you can be made available for data exchange.

We are also happy to have reports generated for you in the format of your choice (e-mail, Excel, etc.) and sent to you regularly when desired.

Logistics consulting

Benefit from the expertise of our consultants and the know-how of a transport and logistics service provider with four decades of experience.

Logistics know-how from analysis to implementation

You and ITC Logistic Solutions jointly develop cost- and performance-optimized logistics solutions - by experts from practice for use in practice.

- With {
- ⇒ Improve delivery service & increase flexibility
 - ⇒ Optimize inventory
 - ⇒ Reduce vertical range of manufacture
 - ⇒ Reduce capital commitment and make fixed costs variable
 - ⇒ Reduce logistics costs
 - ⇒ Provide external know-how
